

## AniVox® Ear Wash - Questions and Answers

Question	Answer
What is AniVox Ear Wash?	AniVox is a modern Ear Wash for animals. It's main functionality is based on the active components from Norway Spruce ( <i>Picea abies</i> ) resin extracted with Resol Technology.
For what I can use AniVox Ear Wash?	AniVox is used in both home care and by professionals in the treatment and prevention of bacteria (e.g. <i>Staphylococcus aureus</i> ) and fungi (e.g. <i>Malassezia pachydermatis</i> ) causing ear problems in dogs. The product is suitable for both temporary, as well as regular use.
Can AniVox be used for other animals than dogs?	Yes, it can be used for all animals suffering from ear problems.
Does AniVox have an effect on inflammation?	Yes, AniVox Ear Wash has strong anti-inflammatory properties.
Is AniVox antimicrobial?	Yes. The solution contains components extracted from the resin of Norway Spruce that has been proven to be effective against most common causes of dogs' ear problems, such as <i>Staphylococci</i> bacteria and the <i>Malassezia</i> yeasts.
Is AniVox safe to use at home?	Using AniVox® Ear Wash is safe even if the ear drum is perforated.
